

INFORMATIONAL GUIDE

Day nurseries and Kindergartens

Early Childhood Education Establishments

2024 / 2025

This guide provides comprehensive information on the **Early Childhood Education Establishments** in the Oeiras Solidarity Network.

You must contact the educational establishment you are looking for directly, as it is subject to its own internal regulations. These include rules on operation, requirements, admission dates, calculation of family fees, and other provisions.

1

Framework

1

Education and Care

The **Early Childhood Education and Care programme** is structured in two stages, with different approaches for younger children (under 3) and older children (over 3).

This is provided by public establishments, private non-profit organisations (Private Institutions of Social Solidarity – IPSS) with a cooperation agreement with the state and private profit organisations with an operating licence.

A **day nursery** is an establishment that provides care for children up to the age of three. This is done during the part of the day when their parents or carers cannot be with them.

Kindergarten is a child development-oriented establishment that provides educational activities and family support activities.

1

Cooperation Agreement

The **Cooperation Agreement** is an effective tool that enables the state to finance the creation of **day nursery** and **kindergarten** places in establishments run by the IPSS.

State funding is provided to the IPSS and is intended to cover the cost of the children's attendance.

Each kindergarten in the Solidarity Network is defined by two key factors:

- **The capacity**, which is the maximum number of children that the socio-educational response can admit, based on the physical space of the equipment or the human resources assigned to the service;
- **The number of children covered by the Cooperation Agreement** and for whom a financial contribution is awarded.

Some establishments have places with and without a Cooperation Agreement. These are funded and unfunded by the state.

You can find the Cooperation Commitment [here](#), in a public document that you are free to consult.

2

Day Nurseries

2

Education and childcare for children up to three years old

Education and childcare for children up to the age of 3 is based on the Pedagogical Guidelines of the Ministry of Education, Science and Innovation (MECI). These guidelines are designed to guarantee the quality of childcare practices and to uphold the rights to education and culture enshrined in the Constitution of the Portuguese Republic.

Day nurseries run by IPSSs are able to sign cooperation agreements with the Social Security system to fund their operation. The institution is paid a monthly amount per child, as stipulated in a Cooperation Commitment Protocol signed between the Ministry of Education. The Ministry of Science and Innovation (MECI), the Ministry of Labour, Solidarity and Social Security (MTSSS), the União das Misericórdias Portuguesas (UM), the União das Mutualidades Portuguesas (UMP) and the Confederação Nacional das Instituições de Solidariedade (CNIS) must be involved.

The Cooperation Commitment for the 2023–2024 period is currently in force. Social security is contributing the following amount per child per month:

SOCIAL SERVICES	FAMILY CONTRIBUTION (children/month) (euro)
DAY NURSERY	€ 329,02
FREE DAY NURSERY ATTENDANCE (children born on or after 1 September 2021)	€ 473,80

2

Education and childcare for children up to three years old

'Creche Feliz' Programme

All children born on or after 1 September 2021 who are enrolled in a daycare centre belonging to the solidarity network, a public daycare centre, a social security childminder or a private for-profit daycare centre that is part of the pool of participating daycare centres will be entitled to free daycare.

As of 1 January 2024, Social Security will assume responsibility for the entire family contribution, including the following expenses:

- Activities and services normally provided by daycare centres (including nutritional, educational, play and motor skills activities);
- Food, including special meals on medical prescription;
- Enrolment, renewal and insurance procedures;
- Extended hours and weekly extension.

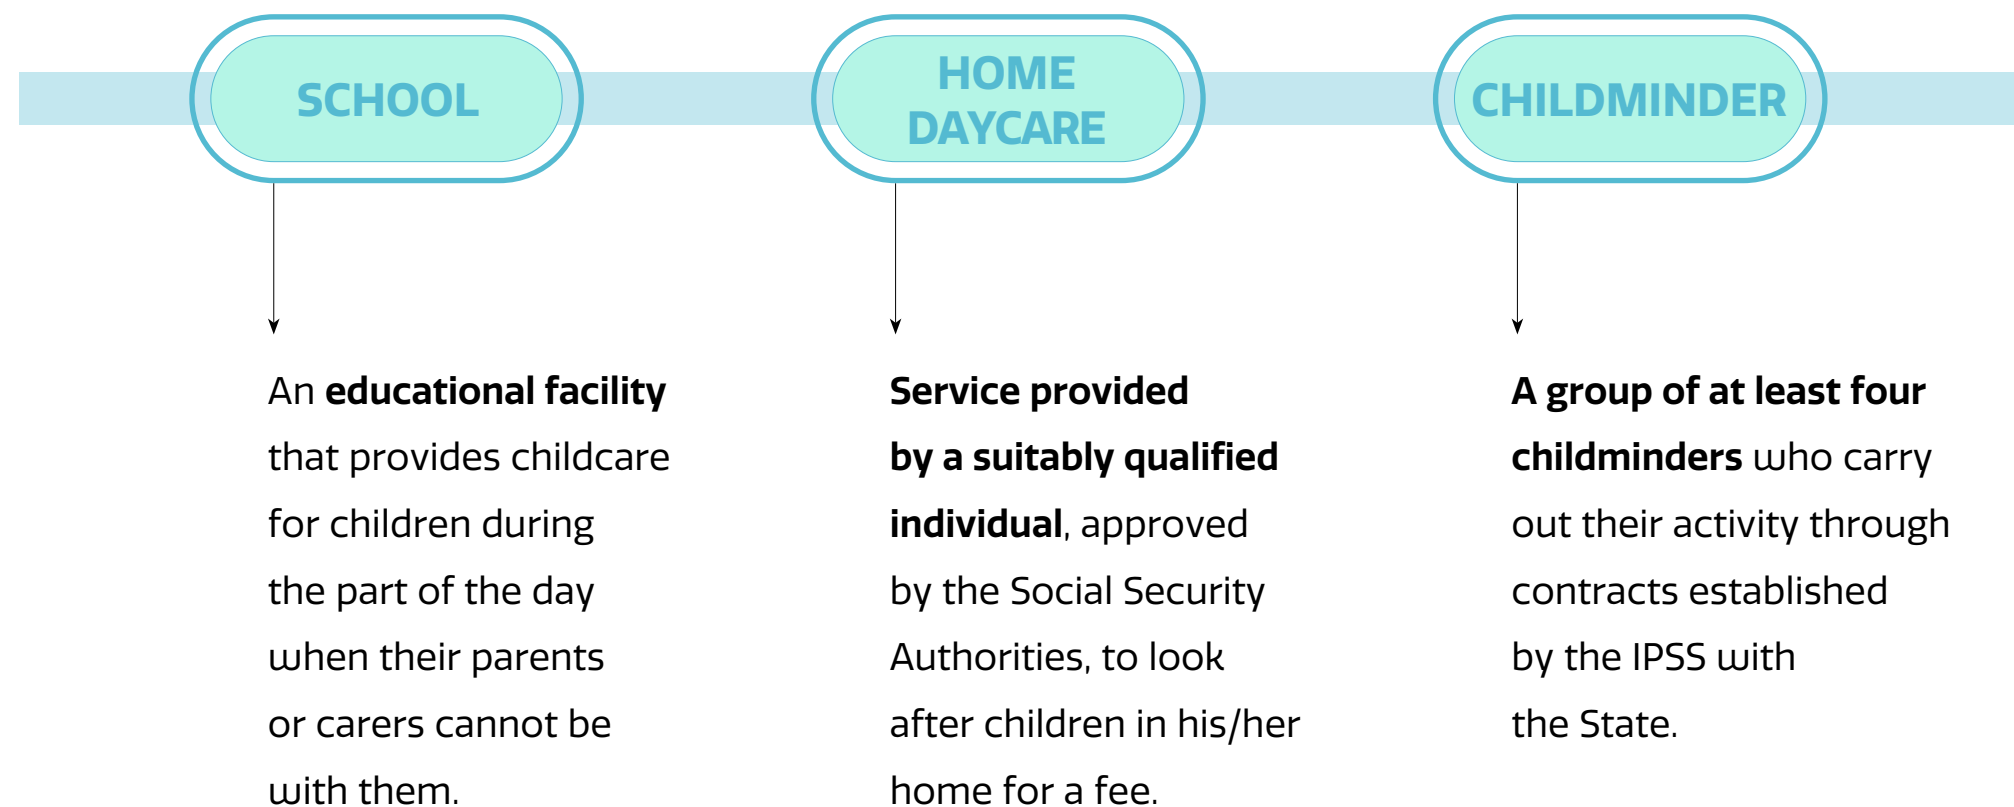

Any expenditure on optional activities outside of the educational project that the institutions wish to develop and in which the parents or legal representatives enrol the children is not included. This would also include the purchase of nappies, uniforms and school uniforms, as well as transport and other optional services.

For more information please visit [Creche Feliz – Rede de Creches Gratuitas](#) (Happy Nursery – Free Childcare Facility Network)

2

Educational programme for children up to the age of three years old

Our educational programme for children up to the age of three consists of:

2

Number of nursery places

1888

Number of nursery places

1759

*Number of state-funded places
through the Cooperation Agreement*

2

Number of children per nursery class

Maximum number

Baby class

(until infants learn to walk)

10

Toddlers' class

(for children up to the age of 2 years)

14

General class

(for children between 2 and 3 years old)

18

2

Daycare admission

- Enrolment is open all year round.
- Attendance at the nursery is not linked to the school calendar.
- Contact the educational establishments for information on places and operating rules

3

Kindergartens

3

Pre-school Education

Pre-school education is the first stage of basic education in the process of lifelong learning. It must complement the educational action of the family. This requires close co-operation to ensure the child's full integration into society as an autonomous, free being and a solidary member of the community. This is set out in the Framework Law on Pre-School Education, Law no. 5/97 of 10 February.

Our network of public kindergartens complements the services provided by the Solidarity Network facilities, which are developed under the cooperation agreement with the Ministry of Labour, Solidarity and Social Security (MTSSS) and the Ministry of Education, Science and Innovation (MECI).

The Ministry of Education, Science and Innovation (MECI) is responsible for pedagogical supervision. Its role is to ensure the quality of education in establishments in the national pre-school education network.

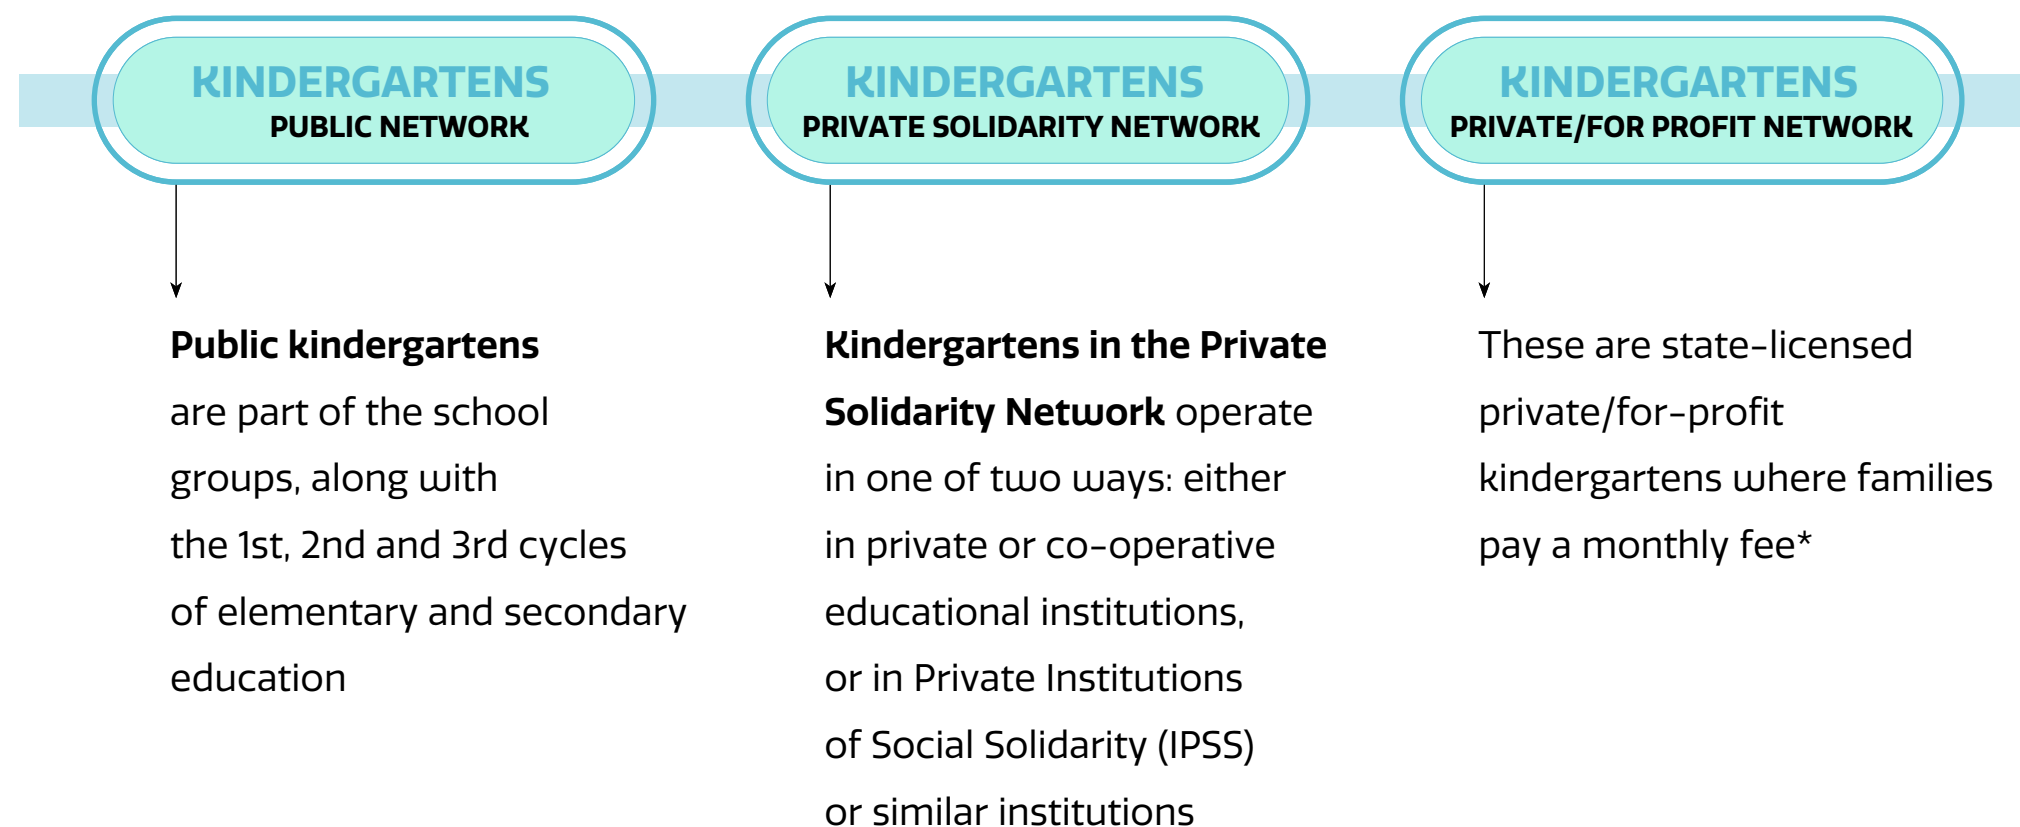

The Ministry of Education, Science and Innovation (MECI) and the Ministry of Labour, Solidarity and Social Security (MTSSS) are jointly responsible for technical supervision. This involves monitoring the organisation and operation of pre-school establishments.

3

Educational services for children aged 3 and over

The educational offer for children aged 3 and over is provided by:

* In the private network, which includes private and co-operative establishments, funding is based on the monthly fees paid by the family. Families may benefit from financial support from the state in the form of family support development contracts, in accordance with their income bracket (<https://eurydice.eacea.ec.europa.eu>)

3

Number of kindergarten places in IPSS

2000

Number of kindergarten places

1827

*Number of state-funded places
through the Cooperation Agreement*

3

Number of children per kindergarten class

	Minimum number	Maximum number
Kindergarten class Number of children per class	20	25

A minimum of **20 children** must be in each preschool group. When a technical-pedagogical report identifies the need for a child to be integrated into a small group of no more than two children with specific conditions, this is the measure of access to learning and inclusion.

3

Kindergarten admissions

The criteria for enrolment, renewal of enrolment and class formation in public kindergartens are set out in [Ordinance 8368/2024 of 25 July](#).

On the [Education Portal](#), consult our **Guide to Pre-school Enrolment**.

Parents have the freedom to choose an Establishment belonging to the solidarity network, but they must adhere to the admission criteria set out in the institution's internal regulations and the availability of places.

3

Funding of the educational component in private social solidarity institutions

The IPSS is funded in the educational component by the Ministry of Education, Science and Innovation. The amount per child per month is set annually by the Joint Order of the Ministry of Labour, Solidarity and Social Security and the Ministry of Education, Science and Innovation.

Ordinance No. 6164/2024 clearly delineates the two components of state financial support for the operation of kindergartens run by the IPSS.

EDUCATIONAL COMPONENT	113,72€ PER CHILD / PER MONTH
SOCIAL AND EDUCATIONAL COMPONENT	64,33€ PER CHILD / PER MONTH

4

Capacity and location of day nurseries and kindergartens of the Oeiras Solidarity Network

4

Early Childhood Facilities Network in Oeiras

39

SOLIDARITY NETWORK ESTABLISHMENTS

The majority of these facilities have **nursery and kindergarten** provisions, which are distributed throughout the parishes of the municipality depending on the area in which the IPSS is located.

21

PUBLIC KINDERGARTENS

These are **spread across 10 schools**, most of which are primary schools.

40

PRIVATE/FOR PROFIT ESTABLISHMENTS

Furthermore, there are kindergartens and daycare centres run by the public and/or solidarity organisations

4

Availability of the Oeiras Solidarity Network

Overall, the Solidarity Network provides **3888** places.

5

Family contribution / Calculation of the monthly fee

5

Family contribution

A **family contribution** is the amount paid for the use of social services and facilities, calculated according to the percentage defined for each social service and applied to the household's *per capita* income.

Please refer to the annex to **Ordinance n.º 88-C/2020, of 6 April**, for details of the family contribution for nursery attendance at IPSS facilities, the monthly fee and its calculation, which you can consult [here](#).

The family contribution for kindergarten attendance at IPSS facilities, the respective monthly fee and its calculation are defined in **Joint Order n.º 300/97 of 9 September**, which you can consult [here](#).

The same rules that apply to the public educational network also apply to the reimbursement of the cost of family assistance services that are part of the non-educational components of pre-schools.

5

Family responsibilities

The family is required to make a payment each month. This is calculated according to the household's per capita income and in accordance with the regulations on family contributions for the use of social services and facilities.

Families should familiarise themselves with the institutions' internal regulations, which are updated for the corresponding school year.

5

Free daycare services

As of 1 September 2020, free daycare is available to children in the first income bracket of the contribution, as well as those in the second tier, from the second child onwards.

As of 21 September 2021, free daycare is available to all children attending a public daycare centre or one covered by the cooperation system, regardless of the number of children in their household. This applies to all children belonging to the second income bracket of the family contribution system.

As of 1 January 2024, the measure has been extended to public nurseries, including those operated by local authorities, public higher education institutions, or other legal entities of a public nature, such as public companies, limited companies, or institutions of a similar nature.

5

Calculation of household income per capita

The Ministry of Education, Science and Innovation is responsible for funding the IPSS educational component. The amount allocated to each child per month is set annually by a Joint Order of the Ministry of Labour, Solidarity and Social Security and the Ministry of Education, Science and Innovation.

School attendance is free on the public network.

Tuition fees in the private non-profit education network are calculated according to the household's per capita income and the Cooperation Agreement in force.

5

Calculation of household income per capita

Per capita household income is calculated according to the following formula:

$$RC = \frac{(RAF/12) - D}{n}$$

Thus:

RC = Average income

RAF = Gross annual household income

D = Fixed expenses

n = Number of household members

Each institution has its own rules about providing proof of household income.

5

Fixed household expenses

The **fixed household expenses** accounted for are:

- a) the value of the fees and taxes necessary for the net income;
- b) The value of the rent or monthly instalment payable for the purchase of a permanent residence;
- c) transport costs, up to the maximum value of the transport fare in the area of residence;
- d) health costs and the purchase of medicines for continued use in the event of illness.

The fixed monthly expenses referred to in points **b)** and **d)** may be capped at a level that is no lower than the amount of the guaranteed minimum monthly wage (national minimum wage);

5

Calculation of the family contribution

The **family contribution** is determined as follows:

- based on the following per capita income brackets, indexed to the guaranteed minimum monthly wage (RMMG), commonly known as the national minimum wage:

1 st TIER	up to 30 % of RMMG
2 nd TIER	>30 % to 50 % of RMMG
3 rd TIER	>50 % up to 70 % of RMMG
4 th TIER	>70 % to 100 % of RMMG
5 th TIER	>100% up to 150% of RMMG
6 th TIER	>150% of RMMG

- by applying a percentage to the household's per capita income:

INCOME BRACKETS					
1 st	2 nd	3 rd	4 th	5 th	6 th
15%	22,50%	27,50%	30%	32,50%	35%
